West Virginia Trout Unlimited License Plates

This is not a fundraiser – no money comes back to TU for this, but we get increased visibility and you get a great license plate. **The cost of these plates would be $70** (roughly the same as a tank of gas in most trucks nowadays). **We must have 250 prepaid applications in order to have this approved by the WVDMV**. Here is an example of a plate done by Tennessee:

If you would definitely purchase one of these plates if offered, please complete all fields below. Once we have the pre-requisite number of 250 (or more to account for attrition) **we will then contact you** with details on where to send your prepaid $70. This money will be kept in an escrow account until the funds are collected; DMV approval and production of the plates are finalized. If any issues occur, your money would be refunded. **NO MONEY DUE AT THIS TIME**

Name of Purchaser	***Phone Number***	***Email Address***	***Quantity of plates you'd purchase***
